SKIP AND WASTE BUSINESS - Operating at and from: the Site of Old Colliery, Frys Bottom

I have observed all activities listed below since 3 September 2024 to my last written observation on 19 March 2025.

- I have kept a log of this business and its activities. Listing what I've observed when I've been at home and happened to see and hear - I am not home all the time.
- My observations below are of this Skip/Waste business - using entrance opposite my house
- I have listed dates/times/photos of this skip/waste business.
- I live directly opposite the Site of Old Colliery, Frys Bottom.
- During this time I have regularly contacted Mr Sam Grant, B&NES Senior Planning Enforcement Officer, sending Mr Grant emails and photos of this business and its activities.
- I started taking photos of this business regularly from 12 October 2024 - from my property and public road - there are a few photos before that date.

MY OBSERVATIONS:

- The site and one of the site entrances of Site of Old Colliery is opposite my house
 - There is also another site entrance into the landowners woods further along the lane, which is also used regularly by this business
- This skip/waste business regularly open gates to the site themselves
- There are x2 skip lorries regularly operating at/from this site
 - x2 men working at this business - not the landowner
- Regularly both of these skip lorries carry/transport both full/empty green skips onto/off the site
 - I have photos of both skip lorries entering/exiting the site - opposite my house
 - Both entrances to whole site are used
- Both skip lorries regularly bring onto site green coloured skips full of: rubble/hardcore/metal/wood/general waste/soil
 - Always drive to back of the yard
 - Full green skips of waste are stacked/stored at back of the yard - I have photos
 - Empty green skips also stored at back of the yard - I have photos of them being delivered
- Both skip lorries drive to the back of the yard where I regularly hear the waste being tipped/thrown/sorted
 - I can hear/see from public road a digger being used - back of the yard - not stable area
 - Bonfires at back of the yard, sometimes producing acrid smell
- One skip lorry is: small in size and one skip lorry is: large in size
 - Recently both parked overnight back of the yard
- I noticed both skip lorries have recently been repainted bright green, same colour as skips
 - Small skip lorry: paint colour was originally blue, on 07/10/24 I noticed had been painted blue/white and on 31/10/24 I noticed had been painted bright green
 - Large skip lorry: paint colour was originally red, on 20/02/25 I noticed had been painted bright green
- Green skips are in 2 sizes - Small and Large

SKIPS - Green colour - Delivered/Stacked/Stored - back of the yard:

- 25/01/25 - x30 empty green skips delivered by red skip lorry to back of yard - came from direction of other entrance
 - x5 deliveries to back of the yard throughout the morning - have times logged
 - Followed in by the landowner
