NB: The parishes of Compton Dando, Nempnett Thrubwell, St Catherine, North Stoke, Charlcombe and Norton Malreward do not have settlements with Housing Development Boundaries and have not been included in this audit.

Introduction

In the rural parts of the District, the Bath and North East Somerset Core Strategy seeks to focus new development at those villages which have better levels of services and good public transport. To ensure that this policy remains up-to-date, the Council undertakes an annual survey of facilities, in conjunction with the parish councils.

This audit identifies the level of community facilities that exist within the rural settlements of Bath and North East Somerset. The audit is intended to be used in determining if a village meets the criteria of a 'RA1' or 'RA2' settlement, as set out in the Core Strategy. It also contains recent housing completions (this is explained later in this report). Clearly, villages can lose or gain facilities and this affects whether policies RA1 or RA2 apply. Therefore this audit is to be used for guidance, rather than being definitive. The application of either Policy RA1 or RA2 will depend on the actual facilities available in a village at the relevant time. This audit was undertaken during the summer of 2015.

Scope of the Audit

There are 40 rural parishes included in this audit. Keynsham, Midsomer Norton, Radstock and Westfield are not included because they are urban areas and are treated differently in the Core Strategy. Whilst the villages of Peasedown St John and Paulton fall within the Somer Valley policy area and therefore are not within the remit of policies RA1 or RA2, they are included in this audit in light of the fact that they are classified as rural areas.

Hamlets and outlying clusters of buildings without Housing Development Boundaries are not covered by this audit as neither policies RA1 nor RA2 apply.

Policy Context

The Council's Core Strategy was adopted in July 2014 and sets out the long term overall vision and strategic objectives of how the rural areas should develop. It includes a delivery strategy for achieving the objectives; sets out how much development is intended to happen and where, when and by what means it will be delivered; as well as how the delivery will be managed and monitored. The Core Strategy sets out housing expectations in rural areas of around 1,120 dwellings over the plan period of 2011-2029.

In line with national policy and sustainability principles, the Core Strategy seeks to restrain new development in rural areas, although provision is made to meet local needs, such as affordable housing, and to benefit the rural economy. New development is focussed at those settlements which have a range of local facilities, good public transport access and community support. The strict controls in the Green Belt will continue to apply to large parts of the rural areas and there is restraint on development that would be out of scale or harm the character of the open countryside.

To deliver this growth in the rural areas, the Core Strategy has a number of policies which will be applied to the villages within the District. These policies are shown below: (please note that this is not an exhaustive list of rural areas policies, please refer to the Core Strategy.

Policy RA1

Development in the villages meeting the listed criteria

At the villages located outside the Green Belt or excluded from the Green Belt, proposals for residential development of a scale, character and appearance appropriate to the village and its setting will be acceptable within the Housing Development Boundary provided the proposal is in accordance with the spatial strategy for the District set out under Policy DW1 and the village has:

- a) at least 3 of the following key facilities within the village: post office, school, community meeting place and convenience shop, and
- b) at least a daily Monday-Saturday public transport service to main centres,

At the villages outside the Green Belt which meet these criteria, development sites will also be identified in the Placemaking Plan and the Housing Development Boundary will be reviewed accordingly to enable delivery during the Plan period of the 1,120 dwellings identified on the Key Diagram. Residential development on sites outside the Green Belt adjoining the Housing Development Boundary at these villages will be acceptable if identified in an adopted Neighbourhood Plan.

Proposals at villages located outside the Green Belt or excluded from the Green Belt for employment development of a scale, character and appearance appropriate to the village and its setting will be acceptable within and adjoining the Housing Development Boundary on land outside the Green Belt.

The villages classified as RA1 will each accommodate approximately 50 dwellings over the Core Strategy period of 2011 to 2029.

Policy RA2

Development in villages outside the Green Belt not meeting Policy RA1 criteria

In villages outside the Green Belt with a Housing Development Boundary defined on the Policies Map and not meeting the criteria of Policy RA1 proposals for some limited residential development and employment development will be acceptable where:

- a) they are of a scale, character and appearance appropriate to the village
- b) in the case of residential development they lie within the Housing Development Boundary
- c) in the case of employment development they lie within or adjoining the Housing Development Boundary

At the villages which meet the above criteria, residential development sites may also need to be identified in the Placemaking Plan and the Housing Development Boundary reviewed accordingly to enable delivery of 1,120 dwellings identified on the Key Diagram. Limited residential development on sites adjoining the Housing Development Boundary at these villages will be acceptable if identified in an adopted Neighbourhood Plan.

The villages classified as RA2 will accommodate between 10 and 15 dwellings over the Core Strategy period of 2011 to 2029.

Whitchurch

Whitchurch Village meets the requirements of Policy RA1 but in addition, Policy RA5 of the Core Strategy removes land from the Green Belt for the development of 200 dwellings above existing commitments. This classification arises from the sustainability advantages of Whitchurch being in close proximity to the city of Bristol. The around 50 dwellings required by Policy RA1 will be delivered through the site at Sleep Lane which was granted planning permission for 47 dwellings on appeal. The Core Strategy therefore does not envisage any further large site housing development coming forward at Whitchurch under Policy RA1.

Villages washed over by the Green Belt

In those villages washed over by the Green Belt development proposals will be considered in the context of national policy set out in the NPPF Para 89.

Within the District there are twenty villages washed over by the Green Belt, these villages are:

- Chew Magna
- Chew Stoke
- Claverton
- Combe Hay
- Corston
- Englishcombe
- Freshford
- Hinton Charterhouse
- Kelston
- Marksbury
- Monkton Combe
- Newton St. Loe
- Pensford
- Priston
- Shoscombe
- South Stoke
- Stanton Drew
- Tunley
- Upper Swainswick
- Wellow

Villages excluded from the Green Belt

There are a number of villages in the rural areas that are 'excluded from the Green Belt'. The definition of a village excluded from the Green Belt is in the NPPF paragraph 86:

"If it is necessary to prevent development in a village primarily because of the important contribution which the open character of the village makes to the openness of the Green Belt, the village should be included in the Green Belt. If, however, the character of the village needs to be protected for other reasons, other means should be used, such as conservation

area or normal development management policies, and the village should be excluded from the Green Belt."

Within the District the following villages are 'excluded' from the Green Belt:

- Bathampton
- Batheaston
- Bathford
- Farmborough
- Saltford

The villages excluded from the Green Belt meet the criteria of either Policy RA1 or RA2. At these villages a Green Belt inset boundary is defined, which generally follows the existing built up limits of the village and in many instances is co-terminus with the Housing Development Boundary. The Core Strategy allows for housing development opportunities to be identified and come forward within the Housing Development Boundary for each village. Opportunities outside the Housing Development Boundary are limited and need to be considered in the context of Green Belt policy. Given the overall level of housing required during the plan period and the spatial strategy for meeting this requirement, the Core Strategy concluded, that the exceptional circumstances to warrant changing the Green Belt inset boundary at these villages did not exist. Therefore, the villages excluded from the Green Belt may not be able to deliver the number of dwellings envisaged through Policies RA1 or RA2.

Parishes in the Open Countryside

The parishes of Nempnett Thrubwell, St Catharine, Compton Martin, Charlcombe, North Stoke and Norton Malreward do not have settlements with Housing Development Boundaries and therefore are within the open countryside.

Methodology

A wide range of data sources were used for the audit, including but not limited to:

- Parish/Neighbourhood Plans
- Survey questionnaire for villages washed over by the Green Belt
- Bath and North East Somerset Council website
- NHS Direct
- The Post office
- Yell.com
- Parish Online GIS mapping
- Google.co.uk
- Google Earth mapping
- Parishes own websites if available
- Office of National Statistics
- First Bus website and journey planner tool
- Wessex Buses website

Care has been taken to ensure that the survey is conducted at the level of the individual settlement, rather than the parish. This can cause some potential problems in the data from parishes containing several small settlements, particularly in relation to double-counting of facilities.

The use of data drawn from internet sites has made a contribution to many sections of the audit. Whilst the Council has sought to ensure the information is accurate and reliable, it is not responsible for the accuracy of information from these secondary sources.

Population

The Office of National Statistics 2011 census data does not maintain population records by settlement, only by Parish.

Core Strategy Housing Figures

This audit includes information on housing completions from April 2011 to April 2015 and sites with planning permission as of April 2015 to enable the parish councils to have a better understanding of their parish and any potential change in demand on the current facilities. Figures are given my settlement, rather than parish and are taken from the B&NES Authority Monitoring Report.

Convenience shop

For the purposes of this audit, the definition of a convenience shop is that used by the Institute of Grocery Distribution (IGD) research. The criteria are as follows:

- Long opening hours (at least 9am-5pm, Monday-Saturday)
- Sell products from at least 8 different grocery categories

Not included in the definition but constituting grocery stores are:

- Supermarkets and superstores
- Alternative channels such as kiosks, markets, post offices, doorstep delivery, vending, home-shopping

The different grocery categories include:

- Alcohol
- Bread/bakery products
- Confectionery
- Fast food/food-to-go
- Fresh fruit/vegetables
- Frozen/chilled food
- Health and beauty aids
- Household/non-food
- Milk/dairy
- National Lottery (any game)
- Newspapers/magazine
- Packaged groceries

- Savoury snacks
- Soft drinks
- Tobacco

Transport

Following on from the analysis of community facilities in the rural areas, appropriate levels of public transport were considered. It is recognised that public transport is limited throughout the rural areas, and that due to the nature of rural areas, providing viable and sustainable public transport is inherently difficult. So whilst public transport is an important consideration, its limitations and difficulties have been borne in mind.

The Core Strategy states that a RA1 settlement must have 'At least a daily Monday to Saturday public transport service to main centres'. This enables local residents to access a wide range of services which are not locally available in a sustainable way. For the purposes of applying the RA1 criteria, this should include enabling local residents to access employment, specifically, a bus service that will get a worker from the settlement to either Bath or Bristol or another large urban area before 9am and returns from the employment centre after 5pm between Monday and Friday.

All transport data was gathered from the First Bus website and Wessex Buses website.
